O₂ GENERATOR

LED Galvanic Regeneration Mask LLLT System

Opera is LLLT(Low Level Light Therapy)mask which is multiple skin care system equipped with low power LED, Galvanic and Oxygen therapy. Opera is designed to emit light effectively into the face and neck.

MULTIPLE LED MASK

- Simultaneous operation of LED and galvanic currents flowing in the galvanic electrode.

LED MODE

MODE 1 630nm + 830nm
(Skin rejuvenation program)

MODE 2 415nm + 830nm
(Acne care + Anti-bacterial effect program)

MODE 3 415nm + 630nm + 830nm
(Skin rejuvenation + Acne Care + Anti-bacterial effect program)

- +
 - +
- Conductive silicon electrode** (Galvanic Current)
O₂ Generator [Option] (Oxygen Therapy)

BENEFITS

- Ergonomic Design.
- Possible to emit light effectively near the skin.
- Lightweight and compact to move easily.
- Enables to get enough light on the whole face area and neck.

OPERA
SPECTRUM MASK

Product Name	OPERA
Model Name	OLM-100
Voltage	DC24V / 2A ~ 2.5A
Power Consumption	28W
LED wavelength	415nm(Blue), 630nm(Red), 830nm(IR)
Company	GTG Korea / Made in Korea.
Address	2 Flor J B/D, 35-25 Jamwon-Dong, Seocho-gu, Seoul, 137-905, KOREA
A/S	T. +82-2-546-0134
